REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,*
State House, Boston.

SIR:—I submit herewith a report on the Statistics of County Finances for the year ended December 31, 1931. In the main, the report is similar to those of previous years. The general summary table, incorporated in the 1930 report for the first time, is continued herein. Certain additional subheadings have been set up in this report in order that a more definite understanding may be had of some of the county transactions.

As noted last year, the operation of Chapter 400 of the Acts of 1930 has made the county treasurer the custodian and treasurer of every county activity involving county finance. While this has been in full operation only a short time, it is already demonstrating its value in better and clearer accounting. By this act several subsidiary treasurers and accounting offices have been made unnecessary and many "lump sum" payments from the county treasury to such officials have been eliminated. All major county accounting is now done in the office of the county treasurer.

The report consists of the following tables:

Table No. 1—Returns of County Treasurers.

Table No. 2—Returns of Clerks of Supreme and Superior Courts.

Table No. 3—Returns of Clerks of District and Municipal Courts.

Table No. 4—Returns of Trial Justices.

Table No. 5—Returns of Registers of Probate.

Table No. 6—Returns of Registers of Deeds.

Table No. 7—Returns of the Recorder and Assistant Recorders of the Land Court.

Table No. 8—Returns of Sheriffs.

Table No. 9—Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10—Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11—Returns of Tuberculosis Hospitals.

Table No. 12—Returns of County Aid to Agriculture.

Summary Table—Consolidation of Tables Nos. 1 to 12, inclusive.

The general tables, which are made from the returns of the various county officials, conform to the various provisions of law governing courts, registries, jails and houses of correction, and the like. These, of course, include certain transactions which, because they involve transactions between various county officials, are in a sense duplications. Again, while the transactions set forth in Table No. 1 are more complete than hithertofore by reason of the application of Chapter 400 of the Acts of 1930 above referred to, they do not include all transactions of the county. The full analysis of the county debt, both funded and temporary and both general and contingent, is this year included in Table No. 1 in a way not before attempted, and will give a more complete statement of the exact condition of the counties in the matter of financial obligations, temporary and over a period of years.

Details for Suffolk county appear only in part. The city of Boston pays all Suffolk county expenses and the treasurer of Boston is county treasurer. The appropriations for county purposes are made by the city and not by the General Court. However, the tables do show the receipts and disbursements of Suffolk officials other than the treasurer. Advances by the county of Suffolk for court expenses and for jails and houses of correction therefore appear herein.

The Summary Table consolidates Tables 1 to 12, eliminating duplications. In the first section of the summary "Receipts" are set forth to show the sources from which they are derived and the general headings under which the finances of the counties are

Under "Expenditures" the summary table sets forth the consolidated expense of the various functions of county government, both from appropriations and under the provisions of special acts. Because of the elimination of duplications, the summary table does not check against the general tables. In other words, while the summary table does consolidate the data set forth in detail in Tables 1 to 12, the amounts set forth against each classification of receipt or expenditure are net amounts rather than totals of items printed in the other tables.

Receipts from dog licenses and fines in the various counties amounted to \$363,439.50. Of this amount, \$285,339.40 was refunded to cities and towns. While this is no great variation from last year, it seems sure that the collection and accounting for dog licenses is not properly handled under present law. Neither is the law relative to appraisal clear. Again, under present statutory provisions, there is and must be a variation in the kinds of animals, birds and livestock for which damage claims are allowed. Unless there is a change to permit better administration of these laws, both as to income and expenditure, there will be a continued lack of uniformity of enforcement and the possibility of laxity in the financial accounting processes.

The work of auditing county accounts is increasing yearly, but all accounts have been audited since the last report was submitted. Changes in officials and the death of several others have made many special audits necessary. Most officials keep satisfactory accounts. A small number are lax in this respect either through lack of training or through carelessness. Such laxness is a severe handicap to this office since it involves the expenditure of a large amount of time by the examiners to untangle the accounts of such officials, usually out of all proportion to the amounts involved.

As discussed in the last report, there has been a general coöperation between county treasurers and other county officials. This necessary coöperation has continued in the main, but it should be increased. The county treasurer has the responsibility for the proper custody and disbursement of the funds. He can not permit laxity of county officials which will bring about situations calling for payments in excess of appropriations. Neither can he pay a bill unless it is legally contracted nor unless all the statutory conditions have been complied with. During the next few years there must be a constant stiffening of requirements in order that every means of reducing expenditures may be availed of and every unnecessary expense eliminated. This department has and will continue to hold treasurers responsible for the utmost care

in these respects, and we shall uphold them in their requirements for proper conduct of business on the part of every county official.

The County Personnel Board, which functions through this department, put its personnel classification into effect on June 5, 1931, the date of the passage of the county appropriation act. During the year Mr. Richard E. Warner of Taunton died. He had been the board representative from Bristol, Norfolk, Plymouth, Barnstable, Dukes County and Nantucket. His service on the board during its early months of operation was constructive, and his long service in county government was well-nigh indispensable. To fill the vacancy, the county commissioners of the district elected Mr. Frederick A. Leavitt of Brookline. Mr. Leavitt has brought to the Board experienced and coöperative understanding which will be of the greatest value.

The classification has been in effect for seven months. It appears to give general satisfaction, though of course much remains to be done before its full effects are apparent. The fact that economic and employment conditions are abnormal has complicated the situation and has raised difficulties which will be solved more slowly than is desirable. In the main, the classification has been and will be a factor in unified control. The fact that all personnel records are now on file and that all changes are a matter of regulated procedure will operate to cut personnel and gross expense.

Respectfully submitted,

THEODORE N. WADDELL, *Director of Accounts.*

STATE HOUSE, BOSTON, June 1, 1932.
